

*NISOC SPECIFICATION
DRILLING FLUIDS PRODUCT DATA*

Product Description:

H₂S SCAVENGER

Basic zinc carbonate, for control and removal of soluble sulfides which become incorporated in water base drilling fluids by formation of hydrogen gas. Insoluble in water but soluble in acid.

Application:

- Sulfides remover.

Typical Physical Properties :

<i>Requirements</i>	<i>Unit</i>	<i>Specification</i>
Appearance	–	White and very fine powder
Zinc content	%	52-56
Moisture content	%	2 max
Bulk density	gr/cm ³	0.55
Loss on ignition	%	30

Recommended Treatment:

Add 2-5 lb/bbl.

H₂S Scavenger Continue :

Source :

KPA

Packaging :

25 kg PP with PE liner waterproof sacks.

Marked on: *Name of Manufacturer, Batch No. and Production date.*

Safety Handling:

- Low-toxicity, in case of contact wash with water.
- Keep in sheltered place.
