DRILLING FLUIDS PRODUCT DATA*

MICA (C)

Product Description:

Moscovite mica ore is recovered from mine , very thin and flexible mica flake is sufficiently strong to withstand deformation and is compatible with oil and water base muds. API grade is coarse.

Application:

- Lost circulation control.

Typical Physical Properties :

<i>Requirements</i>	<i>Unit</i>	<i>Specification</i>
Residue on ASTM sieve 3/8 in.	%	0
Residue on ASTM sieve No. 4	%	30 ± 10
Residue on ASTM sieve No. 10	%	70 ± 10
Residue on ASTM sieve No. 40	%	90 min

Mica (C) Continue:

Recommended Treatment:

Source :

KPA

Packaging :

25 kg laminated woven PP bags .
Marked on : *Name of Manufacturer, Batch No. and Production date.*

Safety Handling:

- No specific precaution needed.
